MEDIAN INCOME IN THE PAST 12 MONTHS (IN 2014 INFLATION-ADJUSTED DOLLARS)

2014 American Community Survey 1-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Massachusetts			
	Total		Median income (dollars)	
	Estimate	Margin of Error	Estimate	Margin of Error
Households	2,549,336	+/-9,145	69,160	+/-957
One race--				
White	83.3%	+/-0.2	73,614	+/-938
Black or African American	6.2%	+/-0.2	42,114	+/-2,137
American Indian and Alaska Native	0.2%	+/-0.1	41,875	+/-16,570
Asian	5.1%	+/-0.1	81,505	+/-2,952
Native Hawaiian and Other Pacific Islander	N	N	82,692	+/-11,553
Some other race	3.4%	+/-0.2	30,768	+/-1,512
Two or more races	1.8%	+/-0.1	49,743	+/-3,619
Hispanic or Latino origin (of any race)	8.4%	+/-0.2	34,507	+/-1,948
White alone, not Hispanic or Latino	78.9%	+/-0.2	75,598	+/-672
HOUSEHOLD INCOME BY AGE OF HOUSEHOLDER				
15 to 24 years	2.5%	+/-0.1	32,491	+/-2,472
25 to 44 years	31.8%	+/-0.3	77,266	+/-1,463
45 to 64 years	41.2%	+/-0.3	86,036	+/-1,191
65 years and over	24.5%	+/-0.2	41,489	+/-889
FAMILIES				
Families	1,610,581	+/-11,929	87,951	+/-980
With own children under 18 years	43.3%	+/-0.5	89,322	+/-1,763
With no own children under 18 years	56.7%	+/-0.5	87,131	+/-1,142
Married-couple families	73.5%	+/-0.5	106,780	+/-991
Female householder, no husband present	19.8%	+/-0.5	37,994	+/-1,656
Male householder, no wife present	6.7%	+/-0.3	55,338	+/-2,218
NONFAMILY HOUSEHOLDS				
Nonfamily households	938,755	+/-12,055	40,329	+/-834
Female householder	55.3%	+/-0.6	34,168	+/-1,243
Living alone	45.5%	+/-0.6	28,449	+/-998
Not living alone	9.8%	+/-0.5	78,332	+/-2,959
Male householder	44.7%	+/-0.6	48,510	+/-2,214
Living alone	33.3%	+/-0.6	37,035	+/-1,276
Not living alone	11.4%	+/-0.5	85,290	+/-4,495

Subject	Massachusetts			
	Total		Median income (dollars)	
	Estimate	Margin of Error	Estimate	Margin of Error
PERCENT IMPUTED				
Household income in the past 12 months	32.5%	(X)	(X)	(X)
Family income in the past 12 months	33.5%	(X)	(X)	(X)
Nonfamily income in the past 12 months	29.3%	(X)	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

While the 2014 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
