Mr. William T. Yardley
President, Gas Transmission and Midstream
Enbridge, Inc.
5400 Westheimer Court
Houston, Texas 77056

CPF 1-2020-014-CAO

Dear Mr. Yardley:

We are in receipt of Algonquin Gas Transmission, LLC, a subsidiary of Enbridge Inc.'s (AGT) Request for Temporary Removal of Pressure Restriction of AGT's Weymouth Compressor Station in Weymouth, Massachusetts, dated December 10, 2020, requested via electronic mail from Nathan Atanu, Manager, Operational Compliance. This letter was in regard to Corrective Action Item 5 (Item 5) of the Amended Corrective Action Order (ACAO) issued to AGT on October 1, 2020 and amended on October 30, 2020.

AGT has complied with Phase 1 through Phase 4 of their Weymouth, Massachusetts Compressor Station (Isolated Segment) Restart Plan and has completed preventive and mitigative measures to facilitate start-up of the Weymouth Compressor Station. PHMSA has now received and has reviewed the root cause failure analysis (RCFA) as discussed in Corrective Action Item 6 (Item 6) of the ACAO for both Event 1 and Event 2.

PHMSA has reviewed the RCFAs and the data submitted on AGT's preventative and mitigative measures performed and based on our technical review, it is our determination to allow the temporary removal of the pressure restriction. As such, this letter approves the temporary operation of the compressor units in the Station.

The ACAO will continue to remain in effect until both the recommended actions from the RCFAs and the remaining corrective actions in the ACAO have been completed. This also includes the submission of all required documentation to PHMSA for review and approval.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration

cc: Ms. Linda Daugherty, Deputy Associate Administrator for Field Operations, OPS
(PHMSA)
Mr. Thomas Wooden, Vice President, Northeast Transmission (Enbridge)
Mr. Nathan Atanu, Manager, Operational Compliance (Enbridge)
