

Catering at CitySpace

CitySpace does not offer food service options in-house and all rental clients who wish to serve food must arrange catering.

This list represents caterers who have a working knowledge of the venue and a history of well-received events at CitySpace. We recommend any of the businesses listed though you are welcome to choose any licensed, permitted and fully insured caterer for food service.

All alcohol service must be provided through Catering On The Charles, the permit holder for this location.
